# Revision of Junior/High school maths

Welcome to revision of Junior/High school maths

- This will include essential maths skills to solve basic problems
- If you are doing digital prototyping related to graphics, this will be useful for technical artists.

- A lot of link will be outside of the website, if you discover any broken links, please inform me Thanks.

## Pre-requisite:

1. Base knowledge and concept of geometry

## Objectives:

1. To review base maths so that it can be applied into the programming

## Descriptions:
