

Useful scripts on site

For enriching the content on project space

Please do not abuse the use of the scripts.

- For security reason js should be disabled in pages
- However for prototyping perspective, it should be enabled, Let's work with trust now ^ _ ^

Upcoming : there will be an easier way to include these scripts by typing "{" and selecting them in macro

Item	Path	Remark
CreateJS (min version)	/js/createjs-2013-05-14.min.js	Use createjs CDN
PaperJS 0.9.9 (min version)	/js/paper-full.min.js
